

Andrews Files 8-14/670 For Reversal in Perjury Case

Attorney Dean Andrews, seeking to reverse a three-year-old perjury conviction, charged today in federal court an assistant district attorney "manufactured" the case against him.

Andrews and attorney Michael F. Barry filed in federal district court a request for admission of facts in connection with Andrews' efforts to quash his conviction and 18-month jail term imposed in criminal district court in 1967.

The conviction grew out of Andrews' testimony before the Orleans Parish grand jury in connection with District Attorney Jim Garrison's investigation of the assassination of President John F. Kennedy.

The pleading charges that Richard Burnes, then as assistant DA, "with your (Garrison's) knowledge and consent, manufactured a perjury case against Dean Andrews."

It also charges that Garrison and Burnes knew in advance of Andrews' grand jury fact material to the Garrison appearance that Andrews "had no knowledge of any probe."
